

PRESSURE REGULATING END GUN VALVE

WITH ELECTRIC ON/OFF BY REMOTE SOLENOID

- For R55 and R75 End Sprinklers
- Medium pressure sleeve (18-80 psi)
- Pressure reducing, adjustable 5-60 psi
- Internal filter to prevent reducing pilot from plugging
- On/off control requires solenoid (provided by others) typically installed remotely from the valve at the last tower on the pivot.
- Available with threaded (2" or 1.25") connections, or wafer style with stud kit for 2" flanges. See table for part numbers.

CONNECTION SIZE/TYPE	CONNECTION MATERIAL	VALVE PART NUMBER
2" x 2" FNPT	Metal	12254-0038
2" x 2" FNPT	Plastic	12254-0034
2" x 1.25" FNPT	Metal	12254-0044
2" x 1.25" FNPT	Plastic	12254-0019
1.25" x 1.25" FNPT	Metal	12254-0041
1.25" x 1.25" FNPT	Plastic	12254-0028
2" Wafer w/Stud Kit	-	12254-0046

PLUMBING AND OPERATION

Solenoid **ENERGIZED**: the valve will accurately maintain a constant downstream pressure

Solenoid **DE-ENERGIZED**: the valve is CLOSED
