Mounting Bracket	See Page 6					
Manual Selector	See Page 3					
Stud Kit	See Page 5					

Notes:

- For aluminum wafer cage only; installed on downstream end of center stud.
- Contact factory for availability.
- See page 7 for description of 4" 2011 design change.
- Old style (pre-1996) sleeves (#8961-002, 10-50 psi / #8961-001, 30-200 psi). See page 8 for details.
- For threaded and victaulic valves only.
- New-style, two-piece, black center barrier assembly includes center barrier internal o-ring.
- O-ring #9721 is for new style two-piece center barriers. Previous 6" and 8" center barrier versions use o-ring #8973.

800P

2" PIVOT END GUN VALVE

All valves include C3 (18-80 psi) sleeve, aluminum cage, #10752 ball vent, and 2 rubber drains

Part Number	Description	Stud Kit	Connection
13271-003	800P A2B12C3 End Gun Valve, no stud kit	-	Wafer
13271-001	800P A2B11C3 End Gun Valve, with stud kit	#10142-001, 1/2" x 8.25", 4 studs, 4 nuts	Wafer
13271-005	800P A2B25C3 End Gun Valve, with 2" FNPT flanges	#10142-101, 1/2" x 8.25", 4 studs, 8 nuts	2" FNPT Flange (#10356)

10753 Ball Vent Kit

Order separately to prevent booster pump air lock. (#10752 is included with valve as shown above)

13271-005 Threaded Valve

For Valmont machines, the 800P is typically installed at the booster pump outlet, remote from the end gun. Also useful when replacing an existing threaded end gun valve from others.

MANUAL SELECTOR

THREE-WAY (OPEN/CLOSE/AUTO), 1/8" FNPT PORTS

8980 - Manual Selector Kit

9905 - Manual Selector
(includes adapter and o-ring)

Detail of Sleeve Code

FILTERS

INTERNAL AND EXTERNAL

All filters use a 100 mesh screen. External filters have a larger surface area and are easier to clean, thus they are preferred in applications with dirty water.

INTERNAL FILTER PARTS

Description	2" & 3" Valves	4", 6", & 8" Valves
Internal Filter Assembly	9804-001	9804-002
Filter Adapter	9801	9801
Screen, 100 mesh	8413	9088
Screen Support	9803	9802

EXTERNAL FILTER PARTS

Description	Part Number
External Filter Kit with Bracket	9408
External Filter Kit without Bracket	9003
Mounting Bracket Kit (see page 6)	9189

6" Valve x 8" Flange Adapter Kit, with stud kit	12225-001	9524	12159	12536 (small) 9485 (large)

MOUNTING BRACKETS

Mounting brackets for attaching accessories such as a solenoid, pressure control pilot, and/or filter to 800 Series Valves.

Application	Kit Part Number	Bracket
For 2" Valves and External Filters	9189	9188
For 3" - 8" Valves	8924	8983
For E29 Solenoids, All Valve Sizes	12532	8983-100

All kits include (2) 6482 Bolts and (2) 7029 lock washers.

EXTENSION BRACKET KIT #10923

Use in conjunction with the standard mounting kits shown above to allow better access to accessories when the valve is installed low to the ground, or when flange adapter kits are used. Can also be used to mount the manual selector remote from the valve.

4" VALVE 2011 REDESIGN

The 4" Valve was redesigned in January 2011. "New" and "old" style parts are not interchangeable. Contact factory for availability of parts for pre-2011 valves.

6" VALVE DESIGN CHANGES

The 6" Valve was redesigned in 1996. Pre-1996 ("old style") parts are not compatible with the "new" style valve. Minor periodic revisions to the sleeve and center barrier since 1996 are shown below and are compatible with all post-1996 valves.

SLEEVE

2001-Present
No ribs. Center bead.

1996-2000
No ribs. No center bead.
Discontinued

Pre-1996 Old Style
Ribs on inside of sleeve.
Contact factory for availability

CAGE

1996-Present
O-ring groove

Pre-1996 Old Style
Ridged face
requires gasket
Discontinued

CENTER BARRIER

2022-Present
Black, Molded
